## About me

My name is Markéta and I am a 2D/3D graphic designer.

My education is based in furniture design but my passion has led me to my current career. I usually prefer 3D over 2D but I still enjoy doing both. One of my personality traits is being super curious therefore I love to learn new things and skills. I can surely tell you more about myself in person so let's talk!

## Work experience

### Givet, s.r.o.

Senior Graphic designer  
May 2023 - October 2023

I was in charge of three beauty brands and all their visual aspects from the smallest weekly banners to packaging design, PR, and overall design revision. My work included visual concepts as well as the preparation of printing data. I created 3d models and visualizations for both my brands and my fellow designers.

### Notino, s.r.o.

Senior Graphic designer  
November 2021 - May 2023

I was in charge of three beauty brands and all their visual aspects from the smallest weekly banners to packaging design, PR, and overall design revision. My work included visual concepts as well as the preparation of printing data. I created 3d models and visualizations for both my brands and my fellow designers.

### Freelance designer

Graphics and interior design  
May 2020 - November 2021

During my freelancing time, I mostly focused on digital design such as web design, concepts for SOME, banners, and other promotional materials. With my interior design clients, I've created multiple interior designs for their homes and their property investments. These included both blueprints and visualizations.

### Intelligent webs, s.r.o.

UX designer  
February 2020 - May 2020

I worked with intelligent webs shortly during my studies. I was in charge of a logo redesign and designing the user interface of their online website tool.
